LOTUS B-TECH SERIES

RELOAD CARTRIDGES

60 80 100

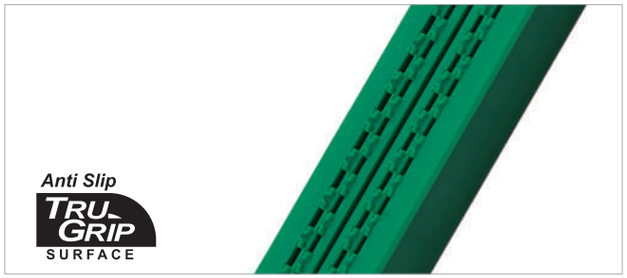
Premium Reload Design

New 440 Stainless Steel Blade with each cartridge enables sharper transection, reduces tissue trauma and avoids cross contamination in anastomosis

Blade Shield
covers blade before and after firing, prevents sharp injuries and accidental pre-firings

Floating Reload Design
makes the reload float above the edge of the fork before closing the stapler fully, thereby avoiding mis-firing

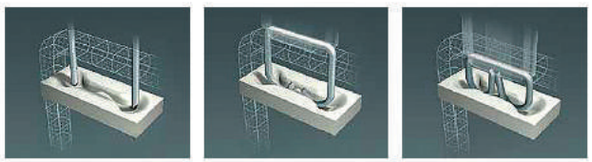
Tissue End Position
ensures complete stapling of tissue in the jaw of the instrument, enabling secure ligation and haemostasis



B-TECH Series Premium Staples

Perfect B-shaped formation

Rectangular wire cross-section bends more reliably in the intended direction



Larger B-Tech anvil buckets with tear-drop anvil shape ensure perfect B-formation in challenging tissue applications

B-TECH SERIES Reloads with Tissue Gripping Surface

Ref. Code	Product Description	Open Leg Length	Formed Height	Colour
LPLCR60PBX	60mm Reload for Medium Tissue	3.8mm	1.5mm
