HEMOSEC®

POLYMER LIGATING CLIPS

Effective, Safe,
Reliable Ligating System

Our HEMOSEC® Polymer Ligation Clips are designed for the safe and efficient ligation of blood vessels and coelomic structures during surgical procedures. Made from biocompatible polymer materials, they offer excellent biological safety and do not interfere with any imaging studies. The clips feature a secure safety lock, ergonomic arc, elasticity, and anti-slip design, ensuring reliable closure and preventing slippage. Their design allows for rapid ligation during operations, providing safe, dependable, and efficient surgical results.
